HEALTHCARE STRATEGY + CREATIVE

AGENCY PRO AT YOUR SERVICE

Whether you need a strategist with the eye of a creative or a creative with a love of strategy, I'm your gal. After 20 years in the Creative Department, first as the sole copywriter at a start-up and eventually as the ECD at the largest healthcare advertising agency west of the Mississippi, I have expanded into strategy, growing my expertise every day by jumping in to help teams think clearly and find the smartest way forward. When you're ready to get going, I'll be ready, too.

"Kristine is a trusted strategic partner who brings out-of-the-box strategic thinking from her creative past." SVP, Brand Strategy
